A new Special Issue Cerebral Salt Wasting Syndrome in Critically Ill Patients: Epidemiology, Clinical Features and Treatment Controversy (http://www.ajintmed.org/sinfo/252015) has been launched in American Journal of Internal Medicine (http://www.ajintmed.org). This Special Issue intends to collect research achievements concerning Cerebral Salt Wasting Syndrome. Novel insights as well as fundamental research on the topics are warmly welcomed. Your submissions along with your ingenious works are expected.

**Lead Guest Editor**

Lead Guest Editor: Gabriel Ignacio Aranalde  
Affiliation: Department of Internal Medicine, Emergency Hospital “Dr. Clemente Álvarez”, Rosario, Santa Fe, Argentina  
Department of Physiological Sciences, School of Medical Sciences, National University of Rosario, Rosario, Santa Fe, Argentina

**Paper Submission**

Potential authors are humbly requested to submit an electronic copy of their complete manuscript via http://www.ajintmed.org/submission

**Topics of Interest Include (but not limited to):**

- Relations between renal sodium physiology and cerebral salt wasting syndrome  
- Evaluation of fludrocortisone effect in the treatment  
- Analysis of clinical features and outcomes in different clinical settings  
- Effects of fludrocortisone on renal sodium and water handling  
- Impact on critically ill patients of profound hydroelectrolytic disorders  
- Advances in pathophysiology  
- Keywords: cerebral salt wasting syndrome, natriuretic peptides, natriuresis, intracranial diseases

**Important Dates**

Submission Deadline: **Feb. 25, 2020**  
Publication Deadline: **Apr. 25, 2020**
